Portfolio Holdings Summary Table (as of September 30, 2024)

The following table presents a summary by quality rating of the portfolio holdings of the Trust as a percentage of net assets:

QUALITY RATINGS	
Pre-refunded/Escrowed to Maturity	1.9%
AAA	4.4%
AA	78.2%
A	10.6%
BBB	0.6%
BB	0.0%
Cash	4.3%

Credit quality ratings are primarily sourced from Moody's but in the event that Moody's has not assigned a rating, the Trust will use S&P or Fitch. If these ratings are in conflict, S&P will be used before Fitch. If none of the major rating agencies have assigned a rating, the Fund will assign a rating of NR (non-rated security). The ratings represent their (Moody's, S&P, and Fitch) opinions as to the quality of the underlying securities in the Fund, and not the Fund itself. The ratings range from AAA (extremely strong capacity to meet financial commitment) to D (in default). Ratings are relative and subjective and are not absolute standards of quality. A pre-refunded bond is secured by an escrow fund of U.S. government obligations (i.e. Treasury securities) and assumes the superior credit rating of the government obligation. The ratings do not predict performance and are subject to change.
